Important Risk Factors

An investment in Forum Multifamily Real Estate Investment Trust, Inc. ("FMREIT" or the "Company") is subject to significant risks. A summary of some of the more important risks is below. A more detailed description of the risks associated with the offering is found in the section of the private placement memorandum ("PPM") entitled "Risk Factors." Investors should read and understand all of the risk factors before making a decision to invest in shares of FMREIT's common stock. The following material must be read in conjunction with the PPM in order to fully understand all of the implications and risks of the offering of securities to which it relates.

- **Past performance is not a guarantee of future results. Investing in shares of FMREIT's common stock involves a high degree of risk. Full loss of principal is possible.**
- REITs are not suitable for all investors. FMREIT is subject to various risks related to owning real estate, including changes in economic, demographic, and real estate market conditions. Due to the risks involved in the ownership of real estate and real estate-related investments, the amount of distributions FMREIT may pay to stockholders in the future, if any, is uncertain. There is no guarantee of any return on investment and stockholders may lose the amount they invest.
- FMREIT anticipates that its investment in real estate assets will be primarily concentrated in the multifamily real estate sector. Such sector concentration may expose FMREIT to the risk of economic downturns in this sector to a greater extent than if its business activities included investing a more significant portion of the net proceeds of the offering in other sectors of the real estate industry, and market concentrations may expose FMREIT to the risk of economic downturns in such areas. These concentration risks could negatively impact FMREIT's operating results and affect its ability to make distributions to its stockholders.
- Furthermore, investing in FMREIT's common stock involves additional and substantial risks specific to FMREIT, including, among others, that:
 - i. There is no assurance that we will be able to achieve our investment objectives.
 - ii. There is no public trading market for shares of our common stock, and we do not anticipate that there will be a public trading market for our shares, so redemption of shares by us will likely be the only way to dispose of your shares. Our share redemption program will provide you with the opportunity to request that we redeem your shares on a monthly basis, but we are not obligated to redeem any shares and may choose to redeem only some, or even none, of the shares that have been requested to be redeemed in any particular month, in our discretion. In addition, redemptions will be subject to available liquidity and other significant restrictions. Further, our board of directors may make exceptions to, modify or suspend our share redemption program if in its reasonable judgment it deems such actions to be in our best interest and the best interest of our stockholders. Although our board of directors has the discretion to suspend our share redemption program, our board of directors will not terminate our share redemption program other than in connection with a liquidity event which results in our stockholders receiving cash or securities listed on a national securities exchange or where otherwise required by law. As a result, our shares should be considered as having only limited liquidity and at times may be illiquid; therefore, you must be prepared to hold your shares for an indefinite length of time.
 - iii. A portion of the proceeds received in this offering is expected to be used to satisfy redemption requests. Using the proceeds from this offering for redemptions will reduce the net proceeds available to retire debt or acquire additional investments, which may result in reduced liquidity and profitability or restrict our ability to grow our NAV. The transaction price may not accurately represent the value of FMREIT's common

stock at any given time and the actual value of a stockholder's investment may be substantially less. The transaction price generally is based on FMREIT's most recently disclosed monthly NAV of each class of common stock (subject to material changes as described above) and will not be based on any public trading market. In addition, the transaction price may not accurately reflect the actual prices at which FMREIT's assets could be liquidated on any given day, the value a third party would pay for all or substantially all of FMREIT's shares, or the price at which FMREIT's shares would trade on a national stock exchange. Further, FMREIT's board of directors may amend its NAV procedures from time to time.

- iv. The offering price and redemption price for shares of our common stock are generally based on our prior month's NAV and are not based on any public trading market. In addition to being up to a month old when share purchases and redemptions take place, our NAV does not currently represent our enterprise value and may not accurately reflect the actual prices at which our assets could be liquidated on any given day, the value a third party would pay for all or substantially all of our shares, or the price that our shares would trade at on a national stock exchange. Furthermore, our board of directors may amend our NAV procedures from time to time. Although there will be independent appraisals of our properties, the appraisal of properties is inherently subjective and our NAV may not accurately reflect the actual price at which our properties could be liquidated on any given day.
- v. Distributions are not guaranteed and may be funded from sources other than cash flow from operations, including, without limitation, borrowings, the sale of our assets, return of capital or offering proceeds, and advances or the deferral of fees and expenses. We have no limits on the amounts we may fund from such sources.
- vi. We depend on FMREIT Advisors LLC (our "Advisor") and its affiliates to select investments and to manage our business.
- vii. We pay substantial fees to our Advisor and its affiliates. These fees increase the risk that you will not earn a profit on your investment. These fees were not negotiated at arm's length and therefore may be higher than fees payable to unaffiliated third parties.
- viii. Forum Investment Group, LLC ("Forum" or the "Sponsor"), the Advisor and their affiliates are subject to conflicts of interest, including conflicts arising from time constraints and the fact that the fees our Advisor receives for services rendered to us are based on our NAV, the procedures for which the Advisor assists our board of directors in developing, overseeing, implementing and coordinating.
- ix. Our use of leverage, such as mortgage indebtedness and other borrowings, increases the risk of loss on our investments. Principal and interest payments on these loans reduce the amount of money that would otherwise be available for other purposes.
- x. Volatility in the debt markets could affect our ability to obtain financing for investments or other activities related to real estate assets and the diversification or value of our portfolio, potentially reducing cash available for distribution to our stockholders or our ability to make investments. In addition, we have loans and may obtain future loans with variable interest rates, volatility in the debt markets could negatively impact such loans.
- xi. Failure to qualify as a REIT could adversely affect our operations and our ability to make distributions.

Flagship Fund Summary

Investment Strategy

Forum Multifamily Real Estate Investment Trust, Inc. (“FMREIT” or “Flagship Fund”) is a perpetual life, monthly net asset value (“NAV”) real estate investment trust (“REIT”) that seeks to invest in institutional-quality¹ multifamily apartments, located in high-growth markets throughout the United States, through acquisition, development, and lending. Forum Flagship is intended to be a 100% multifamily sector focused REIT.²

MONTHLY DISTRIBUTIONS³

MONTHLY LIQUIDITY⁴

MONTHLY PRICING

Note: Unless otherwise noted, all properties depicted in the photos contained in this presentation are owned or managed by FMREIT. **1.** Properties that are typically characterized by their high quality, prime location, significant size, and potential to generate stable and reliable income streams. **2.** Although FMREIT intends to focus its investment activities on multifamily apartments, its charter and bylaws do not preclude it from investing in other types of commercial property or real estate-related debt. **3.** Distributions are not guaranteed and are subject to the discretion of FMREIT's board of directors. FMREIT may pay distributions from sources other than cash flows from operations. **4.** FMREIT's share redemption program is subject to monthly, quarterly and annual limits, as described in the PPM. FMREIT may choose to redeem only some, or even none, of the shares that have been requested to be redeemed in any particular month, in its discretion. In addition, redemptions will be subject to available liquidity and other significant restrictions. FMREIT's board of directors may modify or suspend the share redemption program without stockholder approval.

Investment Objectives⁵

1. PROVIDE CURRENT INCOME

In the form of regular, stable cash distributions to investors⁶

2. REALIZE CAPITAL APPRECIATION

Over the long-term from proactive investment and asset management

5. There is no assurance that these objectives will be met. **6.** Distributions are not guaranteed and are subject to the discretion of FMREIT's board of directors. FMREIT may pay distributions from sources other than cash flows from operations.

Why Multifamily

01 Real Estate allocations are at their lowest levels in decades.

- | Investing in real estate, like any asset, depends on your time horizon.
- | Investors have reduced their allocations well below historical averages.
- | Forum believes now is the time to consider building an opportunistic allocation for the potential to increase return and reduce volatility in your portfolio.

02 Multifamily real estate benefits from secular tailwinds of a supply / demand imbalance.

There are four primary commercial real estate (“CRE”) verticals: office, retail, industrial and multifamily, but only one has a secular supply /demand imbalance.

The U.S. is short ~ 3.8 million homes, the third-largest gap for any year since 2012, trailing only 2020 and 2023. It would take from 6.5 years in the West, to 41 years in the Midwest to close the housing gap at 2024’s building pace.¹

Adding to the growing supply/demand imbalance is the high cost of single-family home ownership, which pushes people and revenue towards rental properties.

Housing Deficit

The country is not producing enough housing to meet the ever-growing demand. The U.S. is short approximately

3.8 Million Homes

the third-largest gap for any year since 2012.¹

03 Forum believes we are at a tipping point: demand outpacing supply.

| Housing supply peaked in 2024.

| Demand for existing housing units exceeded supply in 2024.

Forum believes now is the time to acquire great assets at a discount.

- | Forum has not completed a stabilized acquisition in nearly 5 years.
- | Rates have moved lending costs up 500 bps, resulting in great properties stabilized today, but owned by distressed borrowers.
- | Forum believes now is the time to acquire great assets at an attractive discount.

Potential Tax Benefits of Real Estate Ownership Through a REIT Structure for U.S. Individual Taxpayers¹

REIT Tax Rate Reduction

- REIT ordinary dividends paid to investors (through 2025) may benefit from a 20% tax-rate reduction²

Return of Capital (“ROC”) Impact³

- A portion of distributions may be treated as ROC for tax purposes, given the depreciation deductions inherent in real estate ownership.
- ROC distributions are not subject to current income tax. They reduce tax basis and therefore may give rise to capital gains on disposition to the extent amount realized is in excess of the reduced basis.

Note: Past performance is not indicative of future results. There is no guarantee that the investment objectives will be achieved. The opinions expressed herein are those of the Forum team as of the date of the presentation and are subject to change at any time due to changes in market or economic conditions. Readers should be aware that forward-looking statements, and statements regarding FMREIT's assessment of the market are by their nature inherently uncertain insofar as actual realized returns or other projected results can change quickly based on, among other things, unexpected market movements, changes in interest rates, legislative or regulatory developments, acts of God, and other developments. All forecasts are subject to change at any time and may not come to pass due to changes in market or economic conditions. Further, opinions expressed herein may differ from the opinions expressed by Forum. Please see the Important Risk Factors Section, which is an integral part of this presentation, for certain risks associated with an investment in FMREIT. **1.** The description of tax consequences contained herein is limited to the U.S. federal income tax consequences to a taxable U.S. Individual of an investment in FMREIT. **2.** The 20% tax-rate reduction on REIT ordinary dividends under the "Tax Cuts & Jobs Act of 2017" applies through December 31, 2025. Although a REIT does not pay corporate income tax if it meets the requirements to be taxed as a REIT and distributes its income, dividends from a REIT are not eligible for the 20% tax rate applicable to certain dividends paid by U.S. corporations. **3.** ROC distributions are distributions in excess of current or accumulated earnings and profits. Such distributions are not taxable to an investor to the extent they do not exceed the investor's tax basis in its shares. Rather, the ROC reduces an investor's tax basis in the year the distribution is received, and generally defers taxes on that portion of the distribution until the investor's stock is sold via redemption. To the extent that a ROC exceeds an investor's tax basis, it generally will be taxable as capital gain. Such gain will be long-term capital gain if the investor has held its shares for more than one year. Certain non-cash deductions, including depreciation and amortization, lower a REIT's taxable income and accordingly, lower the taxable portion of a REIT's distribution and give rise to ROC. **4.** The 0%/25%/50%/75%/100% ROC are illustrative examples assuming a 5% distribution. Investors should be aware that the REIT's ROC percentage may vary significantly in a given year and, as a result, the impact of the tax law and any related advantages may vary significantly from year to year. The illustrative example does not reflect the impact of state taxes, tax due upon redemption or sale, or increasing net operating income ("NOI"); an increasing NOI from higher rents would reduce the amount of ROC. Depreciation deductions will reduce taxable income for an asset, on a current basis, while reducing the asset's tax basis. If the asset is later sold, taxable income deferred by depreciation deductions may be recognized as capital gain, and a portion may be subject to depreciation recapture, which generally is currently taxable at a maximum tax rate of 37%. We cannot guarantee that FMREIT will make distributions. In addition, distributions could be funded from non-income items including proceeds from asset sales, borrowings, ROC or offering proceeds, and there is no limitation on the amounts that may be distributed from such sources.

1. Terms summarized herein are for informational purposes and qualified in their entirety by the more detailed information set forth in PPM. You should read the PPM carefully prior to making an investment. **2.** Offering price will generally be equal to the most recent disclosed monthly net asset value ("NAV") per share for each share class and class of OP Units. **3.** To satisfy the requirements for qualification as a REIT and generally not be subject to U.S. federal income and excise tax, we intend to make regular monthly distributions of all or substantially all of our REIT taxable income, determined without regard to distributions paid, to our stockholders out of assets legally available for such purposes. Distributions are not guaranteed and are subject to the discretion of FMREIT's board of directors. FMREIT may pay distributions from sources other than cash flows from operations. **4.** We are offering for sale up to \$250,000,000 in Class F-I and Class F-S shares of our common stock. The minimum investment from each investor to acquire Class F-I and Class F-S shares is \$25,000. **5.** FMREIT may choose to redeem only some, or even none, of the shares that have been requested to be redeemed in any particular month, in its discretion. In addition, redemptions will be subject to available liquidity and other significant restrictions. FMREIT's board of directors may modify or suspend the share redemption program without stockholder approval. **6.** See PPM for additional information regarding how the performance participation allocation is calculated. **7.** Each qualified share will be entitled to a portion of the performance participation allocation at a percentage that bears the same ratio to one share as 0.658305% bears to 1,000,000 shares. There is no guarantee that the performance participation allocation will be earned. The amount of any distribution of the performance participation allocation to a stockholder cannot be guaranteed and may not be significant. **8.** Class C-I is the class of shares received by Class F-I DRIP investors. Class C-S is the class of shares received by Class F-S DRIP investors. **9.** Aggregate target raise of \$250M. Of this, \$125M is reserved for distribution partnership with a global wealth management firm until the second anniversary of the launch date. **10.** FMREIT's stated minimum initial investment is \$25,000, subject to waiver at FMREIT's discretion. **11.** PPA is a percentage of total return and is subject to a 5% hurdle rate as described above and in the PPM. It is payable to an affiliate of the Advisor.

1. The Forum Investment Group ("Forum") track record data presented herein includes multifamily properties that are owned or were owned by Forum-related entities and affiliates. Data includes properties other than development properties, and does not include commercial/land projects. Specifically, the data includes properties that are "sold acquisitions," which are properties that were initially acquired by Forum-related entities and affiliates and were later sold to third parties. Data is presented as of the date the sale of each property was completed. Certain properties remain subject to Closeout Distributions. Past performance is not indicative of future results. As with any investment, there is risk of loss. Investors cannot invest in Forum. There is no guarantee that the experience of Forum will translate into positive results for any Forum-related fund or investment opportunity. The results of each acquisition are specific to that property. Certain terms included but not limited to structure, fees, and expenses will be different in each investment. No investor in FMREIT should expect to obtain these returns. **2.** Equity Raised includes equity raised by, or contributed by Forum or a Forum-related entity and, if owned through a Co-GP arrangement, does not include the Co-GP partner's equity. **3.** Cash Yield to Investors (Annualized) is calculated as: Total Operating Distributions/Equity Contributions/Hold Period. The calculation includes Class B ("CPI") Interest. Refer to Disclosure Page for the definitions of capitalized terms. **4.** The Realized Total Net Return to Investors (Annualized) is calculated as: (Total Equity Distributions - Closeout Distributions - Equity Contributions)/Equity Contributions/Hold Period. If the Realized Total Net Return to Investors (Annualized) for sold properties changes quarter-to-quarter, it is generally due to an adjustment to taxes. Refer to Disclosure Page for the definitions of capitalized terms.

1. Forum track record data presented herein includes multifamily properties that are owned or were owned by Forum-related entities and affiliates. Data includes properties other than development properties and does not include commercial/land projects. Specifically, data includes "active acquisitions," which are stabilized/operating properties defined as a property that has achieved 92% occupancy as of March 31, 2025 and "sold acquisitions," which are properties that were initially acquired by Forum-related entities and affiliates and were later sold to third parties. Data is presented as of March 31, 2025, other than the data for the sold acquisitions, which is presented as of the date the sale of each property was completed. Past performance is not indicative of future results. As with any investment, there is risk of loss. Investors cannot invest in Forum. There is no guarantee that the experience of Forum will translate into positive results for any Forum-related fund or investment opportunity. The results of each acquisition are specific to that property. Certain terms included but not limited to structure, fees, and expenses will be different in each investment. No investor in FMREIT should expect to obtain these returns. **2.** FMREIT properties are valued monthly by an independent valuation advisor. Properties outside of FMREIT are valued internally twice per year using the "Income Approach", which uses the income each property generates to estimate fair value, calculated as Net Operating Income divided by the Capitalization Rate. **3.** Equity Raised includes equity raised by, or contributed by Forum or a Forum-related entity and, if owned through a Co-GP arrangement, does not include the Co-GP partner's equity. **4.** Cash Yield to Investors (Annualized) is calculated as: Total Operating Distributions/Equity Contributions/Hold Period. The calculation includes Class B ("CPI") Interest. Refer to Disclosure Page for the definitions of capitalized terms. **5.** The Unrealized Total Net Return to Investors (Annualized) is calculated as: (Total Equity Distributions + Estimated Equity Value - Equity Contributions)/Equity Contributions/Hold Period. Refer to Disclosure Page for the definitions of capitalized terms. **6.** A Forum-related entity owns a 9.176% economic interest in this property through co-tenancy. All columns show the 9.176% economic interest breakout except the # of Units which is being shown at 100%.

1. Forum track record data presented herein includes multifamily properties that are owned or were owned by Forum-related entities and affiliates. Data includes (i) "sold acquisitions" and "active acquisitions" (as defined on pages 24 and 25, respectively), (ii) "sold developments," (defined as properties that Forum or a Forum-related entity developed), (iii) "active developments" (defined as properties that Forum or a Forum-related entity developed and have stabilized at 92% occupancy), (iv) properties that are under construction/development properties (defined as properties that are under construction and have not received a final certificate of occupancy), and (v) properties in lease-up (defined as properties that have received a final certificate of occupancy but are not yet stabilized at 92% occupancy). Data is presented as of March 31, 2025, other than data for the sold properties, which is presented as of the date the sale of each property was completed and excludes commercial/land projects. Past performance is not indicative of future results. As with any investment, there is risk of loss. Investors cannot invest in Forum. There is no guarantee that the experience of Forum will translate into positive results for any Forum-related fund or investment opportunity. The results of each development are specific to that property. Certain terms included but not limited to structure, fees, and expenses will be different in each investment. No investor in FMREIT should expect to obtain these returns. **2.** FMREIT properties are valued monthly by an independent valuation advisor. Properties outside of FMREIT are valued internally twice per year using the "Income Approach", which uses the income each property generates to estimate fair value, calculated as Net Operating Income divided by the Capitalization Rate. **3.** Equity Raised includes equity raised by, or contributed by Forum or a Forum-related entity and, if owned through a Co-GP arrangement, does not include the Co-GP partner's equity. **4.** Refer to Page 24, Footnote 4 for the calculation of Realized Total Net Return and Page 25, Footnote 5 for the calculation of Unrealized Total Net Return.

DEFINITIONS

Hold Period: For sold acquisitions and developments, the Hold Period is calculated as: (Sales Distribution Date - date of first equity contribution)/365 days. For active acquisitions and developments, the Hold Period is calculated as: (current quarter-end - date of first equity contribution)/365 days.

Sales Distribution Date: The date the distributions from a sale are sent to investors.

Total Equity Distributions: Includes operational distributions, refinance/special distributions, and Closeout Distributions.

Total Operating Distributions: Quarterly distributions paid out of property earnings.

Closeout Distributions: Generally a relatively small portion of the Total Equity Distributions and vary by time period; therefore, they are removed for greater consistency among the return calculations.

Estimated Equity Value: Calculated by the waterfall set forth in the applicable operating agreement for each property, which is a function of Forum's most recent estimated valuation of the property as of the current quarter-end less the debt payoff as of the current quarter-end and using those amounts in the waterfall set forth in the applicable operating agreement.

Class B ("CPI") Interest: A membership interest in the property based upon the amount of the Capital Contributions made by the Class B Members.

Class B Members: Members that own a Class B Membership Interest in the property.

Capital Contributions: The total amount of cash and the fair market value (net of any liabilities secured by the contributed property).

Class B ("CPI") Value: Calculated as part of the waterfall in the applicable operating agreement.
